RE: CC Docket No. 94-102
DiGiPH PCS, Inc.

Suite 804

Dear Ms. Salas:

Mobile, AL

Pursuant to Section 20.18(I) of the Commission's rules, the purpose of this letter is to amend and correct our letter of November 8, 2000 regarding DiGiPH PCS, Inc.'s ("DiGiPH") plans to meet the Commission's requirements for the implementation of wireless E911 Phase II automatic location information ("ALI") technology.

36606

DiGiPH's November 8, 2000 letter incorrectly stated that it had agreed to be purchased by Powertel, Inc. ("Powertel"). As the Commission is aware, on May 30, 2000 DiGiPH entered into a written agreement to sell its assets to Eliska Wireless Ventures I, Inc. ("Eliska"). As part of that agreement, Eliska agreed to purchase the assets (including PCS network equipment and the FCC Licenses) and assume certain liabilities of DiGiPH, and DiGiPH agreed to sell, assign and transfer such assets and liabilities to Eliska. On December 13, 2000, the FCC granted an application for the assignment of DiGiPH's PCS licenses to Eliska Wireless Ventures License Subsidiary I, LLC, a wholly owned subsidiary of Eliska ("Assignment Application"). See *Memorandum Opinion and Order*, DA 00-2757. As disclosed in the Assignment Application, on consummation of the proposed transaction Powertel will hold a 49.9% equity interest and a 24.95% voting interest in Eliska.

334 479-6542

Upon the projected sale of DiGiPH's PCS operations in the near future, DiGiPH will no longer be a Commission licensee and will not be responsible for or involved in implementing Phase II ALI solutions for its PCS network.

No. of Copies rec'd 014
List ABCDE

DiGiPH has confirmed that Eliska is aware of its Phase II E911 ALI obligations. In the event that plans change concerning Eliska's expected acquisition of DiGiPH, DiGiPH will supplement this filing as required by the Commission's Public Notice.¹ Upon consummation of the proposed transaction, DiGiPH anticipates that Eliska will supplement this filing in accordance with the Public Notice to provide the Commission more detailed information regarding wireless E911 Phase II ALI implementation.

Questions concerning this filing should be directed to the following:

Dwain A. Kinard
DiGiPH PCS, Inc.; TRS Number 815601
